AAP Editor & Author Dr. Wasim Siddiqui to Lead the World Food Preservation Center, USA
AAP congratulates Professor Mohammed Wasim Siddiqui on this new and prestigious appointment. In this role, he directs the planning, development, and implementation of plans within the organization, which is dedicated to reduction of postharvest food loss and wastage. Dr. Siddiqui will also originate and promote existing initiatives of the sister universities and institutes of the World Food Preservation Center® LLC. Dr. Siddiqui is editor of two book series with AAP. For more information,

REVIEWS

“Provides a deeper understanding of the relevant aspects of AI impact . . . covering topics that include AI-assisted financial education, trading and business transactions, the insurance industry, personalized banking reforms, which will have the potential to contribute to global sustainability . . . A helpful manual for intellectual and practical work, calls for rethinking, and assesses the implications for the management of innovation in the future. . . . The chapters in this book were all chosen based on peer reviews by reviewers who were quite knowledgeable about the field.”

—Foreword by Elisabetta Reginato, Professor in Business Economics, Department of Economics and Business Studies, Università degli studi di Cagliari, Italy

AI has evolved as a burgeoning technology in many industries, including the financial and banking sectors, which are facing greater challenges in data management, identity theft, and fraud as transactions and other company processes shift online and gain popularity. As systems using deep learning technology are able to detect data patterns and spot suspicious activity and probable fraud, AI can advance many financial and business activities. This book, Applications of Artificial Intelligence in Business and Finance 5.0, provides a valuable overview of how artificial intelligence (AI) applications are
